

## **How to View Start and End time for a practice when using the r-school mobile app.**

*When using the mobile r-school map, the initial view only gives you the start time. For example, August 21 currently shows: Volleyball Practice – 3:00 pm.*

*To view the start and end time, follow these prompts.*

- 1) Touch “Volleyball Practice” on your screen
- 2) Touch “Volleyball Practice” again on the next screen you see.
- 3) A MAP LINK should now appear - touch OK
- 4) You now have a screen that should show you full details, including the end time.

*Note - We have requested and will continue to request that r-school update this function so that the user can see both start and end times on the first screen!*
